

CONNECT:TING – Academia meets Companies

Tuesday, 7th February 2023 | 13:00-15:00 CET

GEOMAR East Shore Campus – Foyer (Geb 8) | Wischhofstr. 1-3, 24148 Kiel

Are you looking for career options and cooperation with companies and institutions working on marine topics in Northern Germany? Then this is something for you! The PACT Career Center and GEOMAR Technology Transfer brings interested scientists at GEOMAR in contact with companies from Northern Germany.

At our CONNECT:TING events, companies introduce themselves to you in a pitch of 3-5 minutes each. Afterwards, you have the opportunity

to meet company representatives for discussions in small groups. Groups rotate to allow for as many individual meetings as possible. There will also be snack breaks where you can get to know each other further.

If there is interest in further cooperation, or you consider working together for a while, GEOMAR offers the possibility of a 2-3 months long hospitation. Please visit our website to find out more about participating companies, register and prepare for the event.

For direct registration for this CONNECT:TING event, use the QR-Code below. The PACT Career Center will be happy to advise you in advance!
