Dr. Beate Scholz: Academic structures and researchers' career development in Germany

Developing a career as (an independent) researcher in Germany calls for knowledge of the national and European research, higher education and funding system as well as career structures and competence frameworks. The talk will shed light on key institutional actors, legal frameworks, selected funding and career development opportunities. It will also address recent trends in peer review and merit assessment in response to increasingly diverse research communities and challenges of our times.

Dr. Beate Scholz is founder and managing partner of Scholz CTC GmbH (www.scholz-ctc.com). She has more than 20 years of experience in science management and strategy development and works nationally and internationally as a strategy consultant, trainer, coach and consultant in universities, research institutions and science organisations. In addition, she regularly publishes international studies on the situation of young scientists.

The Postdoc Lunch is an informal meeting of doctorate scientists in temporary employment at GEOMAR. It takes place on Tuesdays from 1:00 to 2:00 pm via Zoom. Postdoc Lunches are announced via email. At each meeting, there will be an information talk on "What every postdoc should know" followed by time for questions and general exchange. More: www.geomar.de/en/pact0 | Contact: pact@geomar.de
